UTAH IN REVIEW - 1986

Although total nonagricultural employment rose slightly in 1986, certain segments of the Utah economy deteriorated badly during the year. Employment in mining, manufacturing, and construction declined last year. These losses, however, were offset by gains in trade, finance, services, and government. In effect, the economy of the state has been shifting away from the production of goods to the providing of services. In addition, the number of persons left without jobs in Utah rose by about 15% during the year.

These developments had a particularly adverse effect on state government finances. In September, 1986, it became apparent that actual state revenues would fall far short of the estimates used by the Legislature when it established the budget plan for 1986-87. In order to keep the budget in balance, the Governor took steps to reduce previously-authorized expenditure commitments by approximately $48 million.

Two months later, it was revealed that revenue collections in Utah had continued to deteriorate, and that the 1986-87 budget shortfall might reach $91 million instead of $48 million projected earlier. The Legislature, meeting in special session during late November, took added steps to solve the problem. These measures included additional budget cuts and a special one-time income tax surcharge on 1986 tax returns.

State revenues continued to deteriorate, and by February, 1987, an additional revenue shortfall of $30 million had developed. This was resolved by forcing agencies (including education) to absorb added cuts and by speeding up a scheduled tax increase.

Complicating Utah's financial picture even more was the revelation that the combined revenue shortfall over the next five years from existing tax sources would range between $664 million and $1,601 million, depending on various spending assumptions. It was obvious that important decisions had to be made to reduce spending or obtain additional revenue, if the budget was to be balanced. To cope with this problem, the Governor in his budget message to the 1987 Legislature called for tax increases totaling more than $206 million per year. His tax package would have included increases in the individual income tax, the corporate income tax, the sales tax, the cigarette tax, the motor fuel tax, and the motor vehicle registration fees. In addition, he suggested a new tax on soft drinks and authority for local school districts to raise the local property tax.

Although the 1987 Legislature did not enact all of the Governor's program it did authorize tax increases totaling $151 million, largest in the state's history. Among the taxes raised this year were the individual income tax, the sales tax, the cigarette tax, and the motor fuel tax. The income tax reform measure passed this year will place more of the tax burden on the middle and upper income groups, while reducing or eliminating the burden for low income families.

The state budget approved for 1987-88 should keep most existing programs intact, but it will not provide for any growth or expansion. Moreover, there is no provision for any significant salary increases for state employees and school personnel.

One of Utah's major problems during recent years has been the rapid growth in public school enrollments. Over the past ten years, school enrollments in Utah climbed by 32%, while they were dropping by 12% for the nation as a whole. Thus, even though school enrollments in Utah have been rising much faster than the U.S. average, Utah lost ground when funds were compared on a per pupil basis.

Utah, however, has been able to do relatively well with the funds available. Despite the fact that Utah ranked last among the 50 states in the average amount spent per pupil, it ranked 14th in the average ACT (American College Testing Program) score recorded by its graduating students last year. The U.S. Secretary of Education observed that, "the state's ACT score has risen consistently since 1982, and overall, Utah has posted the nation's fourth largest ACT gain since 1982."

More than 80% of all state spending in Utah is for education, social services, and transportation. Education, of course, continues to be the number one area of state expenditures within the state. Last year state and local units in Utah expended more than $1.6 billion for educational purposes.

Sales taxes and income taxes account for more than 70% of all state taxes and nearly half of all state revenue in Utah. The property tax is a major revenue source for local governments. These three taxes produce nearly 80% of all state and local tax receipts in the state.

Utah's total state and local tax burden was above the Mountain States and U.S. averages when measured by personal income. Among the major taxes, Utah was significantly above the regional and national averages in its use of the income tax and the sales tax. The tax changes enacted by the 1987 Utah Legislature will make Utah rank even higher among the states with respect to these two taxes. Utah has been about average in its use of the property tax.

One of Utah's persistent problems is that the state has one of the lowest per capita incomes in the nation. Last year, Utah's per capita income was nearly 25% below the U.S. average. A major factor in Utah's low per capita income, of course, is that the state has an unusually large proportion of nonincome-producing children. Utah has more children in relation to its adult population than any other state in the nation.

NOTE: Above schedule shows compensation plan for classified state employees, executive employees, professional employees, and exempt positions. Separate pay plans cover data processing and trade and craft positions.

* Because they are used in a pilot project and are not typical of the rest of the salary structure, grades 1-4 were eliminated from the pay plan.

** Not included are about 290 trade and craft employees, 420 data programming personnel, and about 550 individuals such as, elected positions, some state-wide water district personnel, instructors, and legislative session workers, who have no grade.

* Because of the delay in remitting the sales tax to the State Tax Commission, the data actually reflect business operations during the fiscal year ended June 30, 1986.

** Net local sales tax allocations are amounts remitted to local units after deduction of 2.5% for administrative expenses.

Includes or reflects use tax collections.

* Iron School District has a salary structure based on three tracks (teacher, professional teacher, and senior teacher) rather than the more-traditional method of compensating teachers by educational achievement and years of service.

** Data for Morgan School District are for 1985-86 school year.

Prepared by UTAH FOUNDATION from salary schedules submitted to the State Board of Education by local school districts.

* Excludes expenditures for administration and for social services.

** Beginning in January, 1974, money payments for old-age assistance, aid to the blind, and aid to the disabled were paid directly by the Federal Social Security Office.

\# Prior to fiscal 1962, medical assistance expenditures are not shown separately. Such medical expenditures are included in program expenditures for these earlier years.

Prepared by UTAH FOUNDATION from reports of the Utah Department of Social Services and Utah Department of Health.

* Individual categories add to more than the total because some persons were receiving assistance under more than one program.

** Does not include old-age recipients, blind recipients, and disabled recipients who were receiving money payments through the Federal supplemental security income program. These adult assistance categories were transferred to the Federal Social Security office on January 1, 1974.

Cases eligible for medical assistance only.

NOTE: Beginning in 1986, property in Utah (with certain exceptions) was assessed at 100% of its "reasonable fair cash value." Tax rates also were adjusted to reflect a percentage of full value. In the above table, tax rates for earlier years were revised by Utah Foundation in order to be comparable with the 1986 changes.

* Average total rate of all special districts in those areas having such districts.

** Prior to 1953 special district rates were included with municipal rates.

NOTE: For taxing purposes, the appraised market value is discounted by 40% in the case of primary residential property and by 20% in the case of other locally-assessed real property to determine the assessed value that is subject to taxation. Above percentages are calculated from the appraised market value before discounts and other adjustments.

* Because of the overlapping boundaries of the various special districts in the state, more than one tax rate may apply within a municipality or school district. For example, 26 different overall tax rates are applied within Ogden City and 16 different rates are found in Salt Lake City. Actually, there are 189 different taxing areas in Salt Lake County, 193 in Weber County, and 68 in Davis County. In the preceding county tabulations, the different taxing areas are designated by one or more code letters following the name of the municipality or school district. Each code letter refers to some special taxing district which imposes or is authorized to impose a tax within the district. Thus, "Weber Schools - A,B,D,J,K,ee" refers to the taxing area in the Weber School District (outside of any incorporated city or town) which is in the Weber Basin Water District (A), Central Weber Sewer District (B), Ben Lomond Cemetery District (D), the Bona Vista Water District (J), the Weber County Mosquito District (K), and Weber County Fire Protection District #4 (ee). Of course, in addition to these taxing district's tax rates, the countywide rates for schools and county purposes are applied in the described taxing area.

a/ Due to inadequate local reporting no breakdown of assessed value within area is available.

b/ Due to inadequate local reporting, state assessment only is shown.
